PPG INHIBISIL® 73 anti-corrosion pigment is a calcium oxide-containing synthetic amorphous silicon dioxide designed for use where thin film build anti-corrosive protection is needed. High calcium oxide content, ease of dispersion and high Hegman value provides formulation flexibility and expanded process capability.

**Benefits**
- High calcium oxide content provides elevated anti-corrosion protection
- Excellent for use in high solids, thin film build coatings
- Formulated with no heavy metals
- Chemically inert, non-toxic and odorless
- Compatible with other anti-corrosion additives
- Ease of dispersion
- Highly resistant to over-grind

**Applications**
- Appliance finishes
- Aircraft coatings
- Metal furniture finishes
- Coil coatings
- Primer and base coats

Samples are available per request from customer service.

Packaging
Standard packaging in small bags are unitized for shipping on pallets and stretch wrapped with clear plastic film. Please consult with customer service or your sales representative regarding additional packaging options including custom package sizes.

Storage
To ensure product integrity, we recommend that our silica products be stored under dry, clean conditions, protected against exposure to direct sunlight and other substances, and used within 12 months of the date of manufacture. PPG silica products that are stored for more than one year from the date of manufacture should be tested for moisture content.

Safety and Health Effects
We recommend that, before use, anyone using or handling this product thoroughly read and understand the information and precautions on the label, as well as in other product safety publications such as the Safety Data Sheet. Any health hazard and safety information contained herein should be passed on to your customers or employees, as the case may be. The products mentioned herein can be hazardous if not used properly. Like all potentially hazardous materials, this product must be kept out of the reach of children.

Product Safety and Regulatory Information
For the latest product safety and regulatory information, please reference the Safety Data Sheets at www.ppgsilica.com.
